Introducing Pod™ Petite

A little revolution in sanitary disposal

We thought it was high time to change the sanitary bin game. Pod™ Petite answers the very sensitive question faced by women; how to dispose of sanitary products hygienically, responsibly and easily? It brings together savvy problem-solving, smooth functionality, and designer style to create a superior sanitary solution that women everywhere love.

Take control

Can be serviced by you or your cleaning/service team. Saves you time, money and hassle.

Designed by women, for women.

A considerate design women choose to use = no more toilet blockages or plumbing call outs.

Hygienically superior

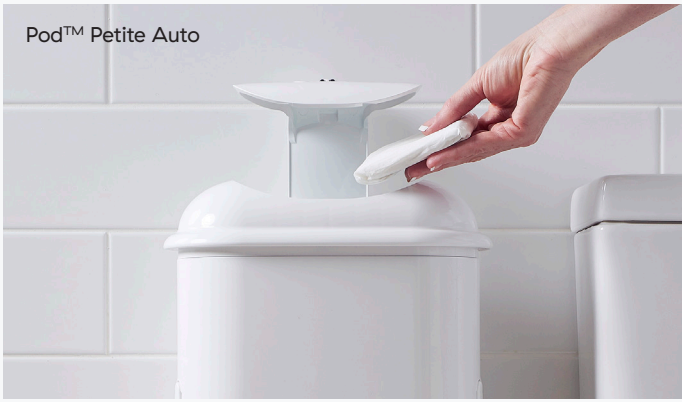

No exposure to waste — safe to use, safe to service.

Sustainably sound

Durable, fully recyclable and includes degradable liners too.

Pod™ Petite — a powerful answer to a delicate problem

Discover why women prefer Pod™ Petite

- A clever design women truly appreciate
- Safe and simple to use — discreet, reliable and protected
- Touch-free and manual models
- Unique opening — no more unsightly surfaces and trapping of sanitary waste
- Eliminates blood-borne cross-contamination
- Compact and unobtrusive

Redefining smart servicing

- Zero exposure to waste for service personnel — no more open bags
- Labour saving — easy to install and service
- Reduced labour costs with a streamlined service process
- Offers customers a self-service choice
- Ideal for isolated remote sites
- Impressive 7 litre capacity

Liner Cartridge — quick, simple 3-step service process:

Liner Cartridge Features

- 32 liners per cartridge refill
- Perforated continuous liner
- Zero exposure to waste — total protection
- Flexible, strong and tear-resistant
- Made with 20% recycled materials and degradable plastic
- Gently scented
